General

- Born and raised in Baltimore County, just outside the City line, Frank Schaefer III is a lifelong Marylander who is very familiar with many of the neighborhoods of the Greater Baltimore Area. Frank was educated at Duquesne University in Pittsburgh, Pennsylvania. Upon returning to Baltimore, he attended graduate school at UMBC. While learning at these institutions, Frank also gained invaluable knowledge working in the construction trades and learning from experienced carpenters and mechanics.
- For several years, Frank held an MSDE teaching certificate, and he successfully taught fifth grade in the Baltimore County Public School system. Although Frank decided to move on from previous lines of work, he has the fondest of memories, and cherishes the depth and breadth of knowledge he has gained from these and many other rich life experiences.
- Assisting Sellers--When working with sellers, Frank strives to attain the highest possible sale price for a property in the shortest amount of time on the market.

Assisting Buyers--Frank believes that purchasing a home should be an exciting time for every buyer. Frank works hard to make sure that his clients' transactions are enjoyable, and that they run as smoothly as possible.
